What is the Famulus app and how will it help me save?

The Famulus app is a free price comparison tool that helps Americans access the lowest prescription prices at their local pharmacies for savings up to 80%.

I have existing insurance, can I still use the app?

Absolutely, anyone and everyone can use the app, even if you have an existing insurance plan. Often times, the discount prices available through our app are even less than your standard co-pay.

What if I don't have a smartphone to download the app?

You can still save! You can simply access the prescription search tool by visiting our website [hyperlink to company page with Famulus Widget], search your prescription and either download or print the coupon. Simply bring the coupon to the pharmacy to save!

Do I need to register and create an account?

No! It's easy. All you need to do is download the app, enter your group ID number and start searching for savings. Click on the coupon and share with the pharmacy for your savings. No need to set-up an account, or remember another password!

Is the app safe to use? Is my personal information protected?

You do not need to enter any personal information to access to within the app. You don't even need to create an account or password. The app will simply connect you with the lowest prices at the pharmacy with no hoops to jump through.

Is there a cost to use the app?

NO! The app and web widget are completely free. In addition, most users find savings up to 80%.

Can I share the app and member ID with family members, employees and other close contacts?

Yes! We want to help you, your family and your employees save money at the pharmacy counter. You can share the link to download the app or access the website widget. Be sure to provide our group ID to them to enter when accessing the app for the first time.
